

**Proposition 13 Groundwater Recharge Feasibility Study Grant Awards  
2000-2005**

<b>Applicant</b>	<b>County</b>	<b>Project Description</b>	<b>Grant Amount</b>	<b>Project Status</b>
Angiola Water District	Kings	Study the feasibility of constructing an in-lieu groundwater project in the District	\$97,500	Complete
Elsinore Valley Water District	Riverside	Evaluate the feasibility of developing a pilot recharge program and implementing a long-term groundwater storage program	\$99,000	Complete
Fresno Irrigation District	Fresno	Study to identify a suitable site for a groundwater recharge basin	\$97,500	Complete
Friant Water Users Authority	Tulare	Study of flood water diversion along Frazier and Strathmore Creeks for conveyance to a site for recharge of over drafted groundwater areas	\$75,000	Complete
Gravelly Ford Water District	Madera	Evaluate the development of a new surface recharge basin to store and recharge excess surface water when available	\$69,000	Complete
Greenfield, City of	Monterey	Evaluate the feasibility of recharge to enhance the sustainability of the domestic water supply	\$100,000	Complete
Indian Wells Valley Water District	Kern	Construct two test infiltration basins and appurtenant facilities to assess the feasibility of implementing a groundwater recharge program	\$100,000	Complete
Kaweah Delta Water Conservation District	Kings/Tulare	Evaluate the Hannah Ranch site to determine the optimum recharge design configuration and operational characteristics	\$94,000	Complete
Kings River Conservation District	Fresno	Evaluate the development of a recharge program to alleviate groundwater overdraft in portion of the District	\$100,000	Complete
Mojave Water Agency	San Bernardino	Determine the most cost effective and efficient way to supplement the natural water supply to lessen current basin overdraft	\$100,000	Complete
Monte Vista Water District	San Bernardino	Evaluate alternatives for groundwater injection as compared to development of new recharge basins for surface water spreading	\$100,000	Complete
Root Creek Water District	Madera	Analyze and evaluate the construction of a conveyance system to connect a Madera Irrigation District canal to the Root Creek Water District	\$68,000	Complete
Sacramento Groundwater Authority (Sacramento North Area Groundwater Management Authority)	Sacramento	Evaluate the feasibility of replacing current groundwater sources with surface water supply using the existing Natomas Mutual Water Company's surface water rights	\$100,000	Complete

San Geronio Pass Water Agency	Riverside	Evaluate lengthening the East Branch Extension to convey untreated SWP water across the Banning/Beaumont area and develop surface water recharge facilities at the forebay of Cabazon Basin	\$100,000	Complete
Water Replenishment District of Southern California	Los Angeles	Feasibility study and pilot project to evaluate expansion of the existing In-Lieu Recharge Program with injection at the Dominguez Gap and West Coast Barriers to increase groundwater storage and reduce operating costs	\$100,000	Complete
<b>Total Feasibility Study Awards</b>			<b>\$1,400,000</b>
